Introduction

Our idea is to provide a framework for medium connecting people who are looking for work and those who are looking to hire workers. There are many illiterates who have good skill in carpentry, farming, driving etc. but unable to find work. Skilled people who are searching for work need to specify their skill and phone number on our platform. Those who want to hire can contact workers through the phone number.

Need

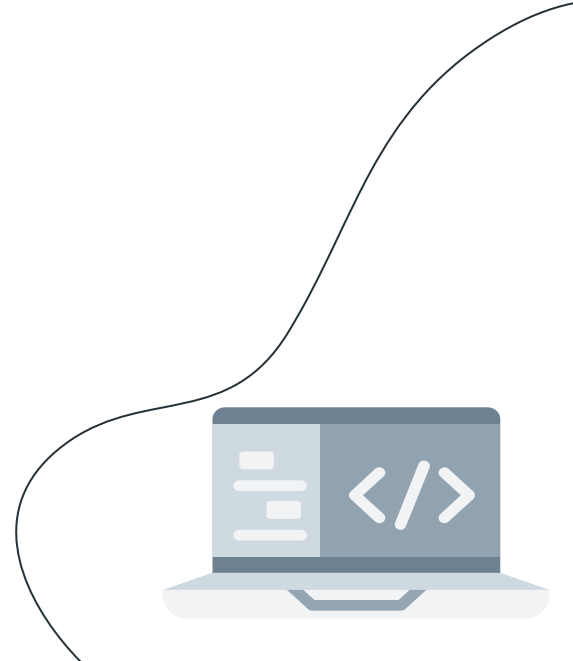

Due to **COVID-19** pandemic Over **122 million** **people in India lost their jobs in April 2020**, according to estimates from Centre for Monitoring Indian Economy. Around 75% of them were small traders and wage laborer. **(THE HINDU)**

We have innumerable android apps helpful for literates but very few for illiterates who have skill to work, so we are here to open up our idea .i.e. **EMPOWER ILLITERATE** where skilled illiterate people can find work.

Applications

- Our project can be used to help skilled illiterate people.
- the people who are in need of skilled workers.
- Our project help workers to directly interact with hirer.
- Workers can withdraw there application from our website if they fulfill or get job on permanent basis.
- Hirer can directly interact with workers and get them paid on daily wages or weekly wages.

Features

Consists of 2 screens for Web app –

A. Home screen:

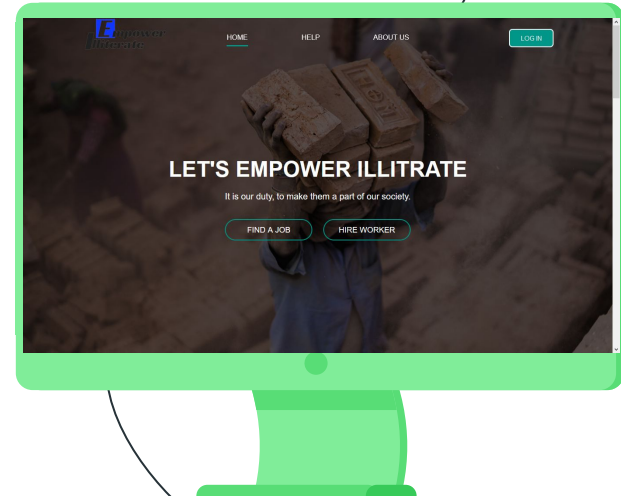

Home panel consist of description about our platform and mission of our project. Contains link to workers registration and login.

B. Applicant panel:

This panel consists of login registration of workers where workers can login to their profile and they are also able to update their details using valid email and date of birth. Worker can also withdraw their application.

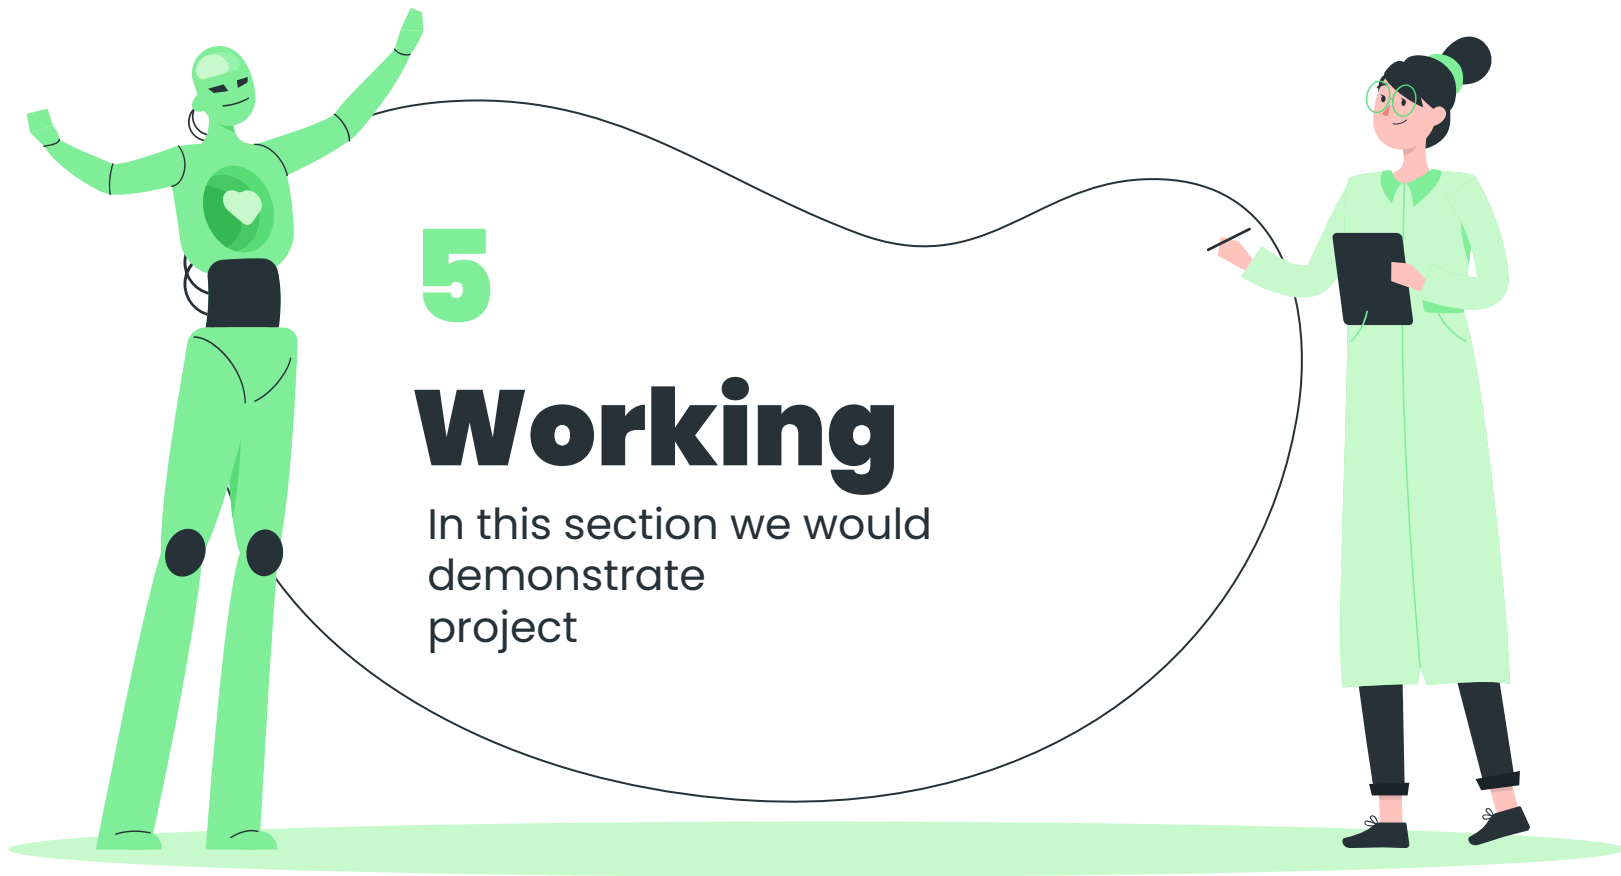

C. Workers panel:

This panel consists of profile cards for all workers. Where hirer can filter workers by their experiences, location, and able to search worker by their skills.

Scope

- In future all works are done through internet so this is first step to empower illiterates
- In future this website can be useful to all people who are searching for job with daily wages
- In future Workers no need to search for job they can directly contact to hirer if hirer post any post regarding requirement of workers at specific place
- In future hirer can post recruitment of workers in our platform where workers can apply for that post
- During pandemic we can directly contact to workers without going outside
- Industries, housing societies are growing fastly so need these for small work so we can directly contact them without searching them for outside
- In future we are thinking to verify workers by giving him blue tick so anyone can trust them easily.
